  - · RGS-PR9000
  - · IGS-P9164GC-HV
- ■ **[Note]:**
- ■ **[Security updated] :**
- ■ **[New Feature] :**
  - · MMS supports CID file and advanced configuration.
- ■ **[Enhancement] :**
  - · Change the "Save" button on each function page to "Apply." To save the settings, please go to the "Save" page.
  - · Downloading an unencrypted configuration file still poses a security risk. Only encrypted configuration files are available for download.
  - · PTP supports advanced settings for clock class and accuracy.
- ■ **[Bug fixed] :**
  - · Resolve the issue where pressing "Save" on the PTP Configuration page causes a loss of connection.
  - · Resolve the issue where pressing a specific function key on the PTP page causes a logout.
  - · Resolve the issue where a user with insufficient permissions can affect other users' logins.
  - · Resolve the issue where selecting a clock instance on the PTP page displays incorrect instance content.
